

PSYCHOLOGIST BOARD OF WA

POLICY STATEMENT

ACCREDITATION OF SUPERVISION

Accreditation of supervision for both provisional registrants and specialist title Registrars is calculated on the basis of full-time equivalent (FTE) periods of supervised experience. Full-time employment is generally considered to be approximately 37-40 hours per week.

Those supervisees working part-time will have their supervision pro-rated accordingly - eg 15 hours per week - or 2 days per week, would be assessed as 40% FTE.

Provided the employment duties are primarily psychological in nature, the period is counted as the relevant FTE of hours worked. If duties also comprise some significant component of non-psychological work, the Board may assess the period as something less than the FTE equivalent of hours worked would suggest.
