Whenever you use our web site, or any other web site, the computer on which the web pages are stored (the Web server) needs to know the network address of your computer so that it can send the requested web pages to your Internet browser. The unique network address of your computer is called its "IP address," and is sent automatically each time you access any Internet site. From a computer's IP address, it is possible to determine the general geographic location of that computer, but otherwise it is anonymous.

We do not keep a record of the IP addresses from which users access our site.

After completing the on-line renewal and making payment, your credit card number will not be retained by the Board, but will be deleted from our system.
